REASONS FOR ALLOWANCE

1. Claims 1-12 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, *a core (1) having a center axis; a winding (10, 35, 36) applied on the core has two disks (11,12) adjacent to each other in the direction of the center axis, the disks being formed of conductor strip sections (21a, 21b, 29, 30);*

the conductor strip section (21a, 29) coiled in a first winding sense, the conductor strip section (21b, 30) coiled in a second winding sense being opposite the first winding sense, each disc (11, 12) having an inside layer being near the core (1), the two inside layers of the two disks (11, 12) being conductively connected by a connection section (21c, 31, 17), the connection section (21c, 31) determining the winding senses of the two conductor strip sections (21a, 21b, 29, 30) and an axial distance (a) between the two disks (11, 12).

The reference of record does not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
